

**FROM THE LAW FIRM OF CATZ, KATS,
MOREKATZ AND A RAT**

February 7, 2017

Dear Sir/Madam:

Your organization has single-handedly brought the American economy to a halt, and destroyed the internet. This apparently is being caused by a camera that has been installed for one of your new residents named "Nova."

We have received numerous complaints from our clients regarding this new resident at your facility, to wit:

- ◆ Plastic surgery has had to be performed on faces that have been frozen in one expression from smiling;
- ◆ Bodily injuries have been caused by persons being startled and falling off their chairs when said resident attacks the camera;
- ◆ Stomach and throat issues have arisen, and various muscles have been pulled, due to laughing too hard;
- ◆ Equipment problems (i.e., ruined keyboards and monitors) from projectile fluids;
- ◆ Clothing has had to be replaced due to incontinence issues from laughter;
- ◆ Employees have been calling in sick and/or watching said resident at their desks, thus stopping the flow of work at their facilities;

And last, but certainly not least, one of our clients had a relative who he claims died laughing.

We have examined these complaints and find them all to be valid after watching said resident for approximately two days. We do find, however, that more research needs to be completed. Therefore, our office will be closed for approximately one month while we conduct this research.

Thank you for your attention.

Sincerely,

Iwanta Kisserbelly, Partner
Catz, Kats, Morekatz and a Rat
