

**FROM THE LAW FIRM OF CATZ, KATS,
MOREKATZ AND A RAT**

February 10, 2017

Dear Sir/Madam:

Further to our letter to you on February 7, 2017, regarding the grievances brought to our attention about your new resident Nova a/k/a The Destroyer.

We have received additional complaints to wit:

- ◆ Substantial weight gain has been reported because fitness programs are being disregarded and replaced with time spent watching this bobcat.
- ◆ Eye strain issues have surfaced; i.e. blurred vision, headache, and occasional double vision from staring at computer screens for prolonged periods.
- ◆ Back issues are occurring from viewers sitting in one place for so long.

Despite our letter to you outlining all the previous issues involving Nova, you ignored our complaints and instead put in a SECOND camera!

This is unacceptable, and will undoubtedly require even more research on our part.

Therefore, we have increased the time our office will be closed from one month to approximately 6 weeks.

Thank you for your attention.

Sincerely,

Iwanta Kisserbelly, Partner
Catz, Kats, Morekatz and a Rat
