## LETTER TO THE MANAGEMENT

---

---

April 4, 2017

Dear Sir/Madam:

On Monday, my frenemy Seth and I had a splash-off in Tiger Lake. I am writing to protest the media attention this has received, and the unruly crowd of watchers that it attracted.

Now, really – can't a guy have any privacy? It's bad enough that pictures are always being posted on Explore chat of us "taking care of business," but now VIDEOS are being posted when we try to enjoy ourselves. I know this, because both Seth and I saw the camera move to get a better angle. Yes, we know it's there! We may not be members of Tensa (*Tiger Chapter of Mensa*), but we know a camera when we see it.

And to make matters worse, we had a crowd of watchers hooting and hollering at us, and telling us to behave and play nice! Harrumph. Behave and play nice indeed! We were having such a good time but were forced to stop because of all the attention. We came back a little while later when the watchers were gone, but still the camera was recording.

Seth and I have discussed this, and we believe we are entitled to a portion of the profits for any videos or still pictures that are published of our encounter. Since we do not have any bank accounts (financial institutions will not accept pawprints as signatures for some reason), we request any and all of our profits be paid in turkeys. We expect the first ones to be delivered within one week.

Thank you for your attention.

Sincerely,

TJ Tiger (not to be confused with my cousin, Tony) and Seth  
(Sent via Lori D., Secretary to the Cats)

*PS – I don't know what kind of medicine you are hiding in my food, but I was hallucinating today that the fence was feeding me.*

*“Is anybody else seeing this???!?”*

*“Well, it tastes real ...”*
