
LETTER TO THE MANAGEMENT

August 31, 2016

Dear Sir/Madam,

We, the residents of Big Cat Rescue, are writing to protest a policy by the management regarding pets. It seems that policy is being arbitrarily enforced throughout the complex. The newest resident of BCR, by name of Spirit Feather Bobcat, has been allowed to have a pet rat for approximately the past three weeks.

It has also come to our attention that the kittens in the Kitten Cabana were allowed a pet skink for a day, that Thor Bobcat had an opossum, Mr. Claws Bobcat had a snake, TJ Tiger and Hoover Tiger have turtles and fish, and Her Royal Lioness Nikita has a pet squirrel and a lizard!

We feel this is unfair to the rest of the residents here, and therefore we request that you rescind the No Pets Policy immediately.

Nala Serval wants a squirrel; CamBu wants some birds; Andre and Arthur Tigers want some ducklings.

And I don't think anyone will argue with the fact that both Amanda and Joseph need emotional support animals.

The No Pets Policy needs to be rescinded immediately. We anxiously await your response.

Sincerely,

The Cats of Big Cat Rescue
(Sent via Lori D., secretary to the Big Cats)
