
LETTER TO THE MANAGEMENT

September 12, 2016

Dear Sir/Madam,

I am writing to you again concerning some issues that need to be addressed.

First of all, the mooing from the cow next door has not stopped; on the contrary, it has increased. Moo, moo, moo, all night long. I am forced to sleep during the day because I can't get any sleep at night. And heaven forbid there is a rainstorm, because that seems to excite him and results in even MORE mooing.

As a result, I suggest that the Management immediately put in place a Noise Ordinance stating that there must be silence from all the residents after 10 pm. I think that is a reasonable time for everyone to stop mooing, chuffing, roaring, chirping, etc. I have no problem if anyone wants to stay up all night, but they should be required to do so quietly.

Next, I formally request a toy in my lake. I loved Peg the Keg, and now the cow has her on his side of the lake. As the longer of the two residents, I feel it only fair that I should be given more consideration and be given a toy in my side of the lake to play with.

Which brings me to my most serious concern. SNAKES. I don't like snakes. They are slithery and slimy and sneaky. And one JUMPED OUT at me in my enclosure yesterday! It's a good thing I have excellent reflexes and was able to get out of its way. It's also a good thing I wasn't hungry, because that snake would have made a tasty little snack.

Making matters worse, the snake then slithered into my side of the lake. MY SIDE OF THE LAKE! I hope it finds its way to the other side because that'll really give that cow something to moo about. But in the meantime, I request that the lake be checked to make sure that snake is gone. I don't want to go swimming and have something biting at me or my private bits while I'm trying to get some exercise or cool off. Please send Josh immediately with a net.

Thank you for your attention.

Sincerely,

TJ Tiger
