## LETTER TO THE MANAGEMENT

---

---

November 25, 2017

Dear Sir/Madam:

I need to respond to some remarks that were made in HRL Nikita's last letter. My lady friends and I are NOT mooing and moaning at night – we are simply singing the song of our people. It does not flatter you, my Queen, to make such mean comments. To be fair, our gated community has heard some rather strange sounds coming from your courtyard, especially after your toys have been moved or when it rains, but out of respect no one has ever mentioned it. Shame on you!

I must admit, however, that HRL's comment did give me an idea. The interior decorator in me has come up with a wonderful new enclosure layout for me and my lady friends. I think that my enclosure should be laid out in a wagon wheel formation, with me at the center and my ladies at each end of the spokes.

This would be great, because when we wanted to visit with each other the door between me and one of the ladies could be opened. When they wanted their alone time (but really, who would with a hunk like me waiting?) the doors could be closed. Of course, this will require a keeper to be on hand at all times to open and close the doors, but I am sure that could be arranged.

Please see that this is done as soon as possible. It would be a great Christmas gift for me and the girls!

Thank you in advance for your cooperation.

Sincerely,

Hoover Hefner
