
LETTER TO THE MANAGEMENT

February 9, 2018

Dear Sir/Madam:

Rumor has it that a certain Secretary is going to be here in May and that she will be volunteering in the office. Since I (Zabu) am her emotional support animal, I feel it's only right for me to be there to help, too. I can't type or answer phones, but I am great at shredding! For reference, just watch any of my enrichment videos. Cammy, of course, will have to be there, also. Heaven forbid I leave him on his own for any length of time (he would probably think I'm with Joseph). He can't type or answer phones, but since he likes to act as a lookout when we're on vacation he would be great for security.

Some of the other residents are also willing to volunteer. We all know how Beacher LOVES to talk – he wants to be a tour guide. Since the stinky Texas Tigers have a musical group, they have volunteered to provide musical entertainment. And Gilligan and Skipper would like to volunteer as an alarm system since their calls can be heard throughout the complex. Since B. Cakes and Narla have now successfully infiltrated ... uh, are sharing Afton's office and have access to her cameras, they will be in charge of photography.

Aries and Orion are willing to volunteer for anything just to get away from their sister. The Biscuits and Sundari are willing to do a comedy show, and Hoover is willing to act as translator for any Spanish-speaking visitors. Seth and Andy's Landscaping Service has volunteered to give the complex a once-over before visitors arrive, and Kali has agreed to clean up the pond in the VR.

HRL Nikita and King Joseph do not wish to volunteer; they said they know everyone comes to see them, and they don't wish to disappoint their fans. And, well ... royalty, you know.

Please let us know if this meets with your approval so that we can start the planning process.

Sincerely,

Zabu and the Residents of Big Cat Rescue
(Sent via Lori D., Secretary to the Cats)
